

SERVEON SEALANT PRODUCTS FOR CAST (MAN-MADE) STONE (Statues, Lawn Ornaments, Balustrades, Fountains, Window and Door Surrounds)

PRODUCTS THAT PROTECT, PRESERVE AND BEAUTIFY - WE MAKE THINGS LAST!

CAST STONE

Cast stone: Cast stone is a concrete masonry form of artificial stone which simulates natural-cut stone. Cast stone can be made from white and/or grey cements, manufactured or natural sands, crushed stone or natural gravels, and may be colored with mineral coloring pigments. Cast stone can be seen in columns, cast stone veneers, balustrades, window and door surrounds, many forms of fountains, statues, lawn ornaments, etc. Since cast stone is made from concrete it should be sealed to preserve the appearance and prevent deterioration.

Sealant Considerations: Serveon makes many sealers for protecting concrete and products made from concrete. The right sealer will depend on what is desired to be achieved. Most Serveon sealants will provide protection from water while also providing special protection properties.

Treating Existing Deterioration/Flaking/Pitting/Salt-water erosion

SD500-Concrete Sealer, Hardener, and Densifier, SD500 is a water-based sealer that extends the life of concrete, decaying and deteriorating concrete and cast stone products; greatly reduces cracking, chipping, deterioration, [View Product](#).

SD600-Concrete Sealer, Hardener, and Densifier, SD600 is a water-based sealer that **is the** same as SD500 but also waterproofs. It extends the life of concrete, decaying and deteriorating concrete and cast stone products; greatly reduces cracking, chipping, deterioration, [View Product](#).

CN100-Densifier/Consolidator, CN100 is a solvent based, deep penetrating high performance sealer that extends the life of concrete, decaying and deteriorating concrete and cast stone products; greatly reduces cracking, chipping, deterioration, repels water, consolidates and densifies, resists efflorescence, strong beading, slight darkening, [View Product](#).

General Protection: From Weathering/Wear/Deterioration/flaking/UV Rays/salt-water erosion

SD200-Steelcrete Pro, water based, film forming and penetrating; repels water, repels stains, prevents efflorescence, high dirt/leaf/grass resistance and pickup, matte finish, does not affect color, [View Product](#).

NS800-Stabilizing Sealer, water base, penetrating, high performance, strong beading, strengthens substrates, may slightly darken, prevents efflorescence, [View Product](#).

RS500-Ultra Porous, solvent based, penetrating, repels water, high performance, strong beading, will slightly darken/enhance, [View Product](#).

SD500, SD600, CN100, See above

Protection from Oil Stains

NS900-Stain Pro, water based, penetrating; repels water and oil (motor/cooking), nature stains caused by oils, strong beading, slight darkening, [View Product](#).

RS600-Stain Safe, solvent based, penetrating, repels water, strong stain resistance including red wine, oils, strong beading, slight darkening, [View Product](#).

WL250-Wetlook Gloss, Solvent based, high performance acrylic surface film and penetrating sealer, darkens – enhances, gloss, wet look, repels water, oil, wine, etc., [View Product](#).

WL350-Wetlook Low Sheen, solvent based, acrylic surface film and penetrating sealer; repels water, oils and most stains, enhances/darkens colors giving a wet look, [View Product](#).

Protection from discoloring algae/molds, black, green, other

CS100-ClearSteel, solvent based, penetrating; repels water, prevents black algae only (the most common), up to seven-year effectiveness, slight darkening, [View Product](#).

CS200-Algae Stop, water based, surface film; repels water, prevents most forms/colors of algae, up to 2–3-year effectiveness, [View Product](#).

You may also want to consider:

RS800-Enhancer, water based, penetrating; repels water, strong beading, prevents efflorescence, enhancing wetlook, matte finish - slight to moderate darkening, [View Product](#).

SD400-Densifier, Hardener, Water Proofing, Water based, high performance, prevents efflorescence, significantly strengthens gunite, shotcrete or concrete pool shells, does not affect grout or plaster bonding, [View Product](#).

For Cleaning

CL500-Cleaner, water based, concentrate, formulated for cleaning limestone, concrete, grout haze and efflorescence, removes most any stain or discoloration, [View Product](#).

NU100-Neutralizer, use after CL500 to neutralize the surface prior to sealing, [View Product](#).
